

MEDICINAL PLANT PROPAGATION 2

WHY - WHEN - and HOW?

EMERSON COLLEGE, Sunday 19th Sept, 10am to 4pm

with botanist **Alice Livingstone** &
medical herbalist **Kirsten Hartvig**

GROW YOUR OWN FOOD & MEDICINE

A fascinating day workshop about the principles and techniques for propagating medicinal plants, how to grow them in your garden, and how to use them as food and medicine.

Price: £79 pp • Booking: info@bbgec.uk or 07477 220 707

Alice Livingstone BSc (Landscape Management), MSc (Plant Diversity) is a botanical propagator and field botanist who specialises in UK flora. She has worked in the nurseries of several famous gardens.

Kirsten Hartvig ND, MNIMH, DipPhyt is a medical herbalist, registered naturopath, nutritionist, writer, and author of 14 books on herbs and plant foods as medicine. She is also a keen botanist, cook and herb gardener.

Alice is plant records officer and Kirsten is curator of **the Biodynamic Botanic Garden at Emerson College**. They both work for **Heartwood Botanic** and manage the **The Healing Garden**, which is the apothecary section of the botanic garden.

Kirsten also teaches materia medica on the **Heartwood Education** professional course in herbal medicine.
